Hide-A-Hose Central Vacuum Systems

The Hide-A-Hose™ retractable hose system solves the problem of carrying and storing a central vacuum hose. Simply pull out the amount of hose you need and begin vacuuming. When you are finished, the suction pulls the hose back into the wall for you.

Hide the vacuum and the hose

Hose lengths are available in 30, 40, 50, and 60 foot lengths. Each inlet can cover up to 2,300 sq. ft.

BUILT-IN VACUUM

BEAM
BUILT-IN VACUUMS

What will a Central Vacuum do for me?

Vacuum cleaning is an essential part of modern living, but portable vacuum cleaners tend to be awkward. A BEAM central vacuum cleaner, on the other hand, is the most powerful, most convenient, and easiest way to clean your home. A BEAM central vacuum system provides you with:

A clean you can trust.

Count on BEAM for everyday cleaning. A larger motor allows BEAM central vacuums to provide up to 50% more suction power than a portable vacuum. And the deep cleaning power and suction doesn't quit over time. Year after year, BEAM removes 100% of contacted dirt and debris from every surface.

Lightweight control.

With BEAM, vacuuming is light housekeeping, not a weight-lifting exercise or obstacle course. A lightweight hose and ergonomic tools let you move easily from task to task, level to level, floor to ceiling, and up stairs, without getting a sweaty workout from dragging around a heavy portable vacuum.

The quiet way to clean.

Experience a quiet moment listening to the birds outside or listening to music while vacuuming. With the motor located away from the living area, the quiet hush of airflow is all you'll hear. Vacuum whenever you want without disturbing anyone's activities or sleep.

Nothing to sneeze at.

Don't get left in the dust. Central vacuum systems are often recommended by allergists because indoor air pollution is one of the most common problems for allergy sufferers. Unlike conventional vacuums that can recirculate dusty air, a BEAM central vacuum system removes 100% of contacted dirt, dust, mites, pollen, animal dander and other allergens from the home.

BEAM Cleaning Kits ON SALE!

With BEAM, vacuuming is light housekeeping, not a weight-lifting exercise or obstacle course.

BEAM
BUILT-IN VACUUMS

Canada's #1 Selling Brand

Don't lug a vacuum. plug in a BEAM!

Canada's leading built-in vacuum since 1957

BEAM
BUILT-IN VACUUMS

BEAM Central Vacuum Systems is the world's leading producer of built-in central vacuums since 1957. **BEAM central vacuum systems are now sold in more than 50 countries around the world.**

Compare for yourself how a BEAM central vacuum system beats a portable vacuum.

- Unlike conventional vacuums that can recirculate dusty air, a BEAM central vacuum system removes 100% of contacted dirt, dust, mites, pollen, animal dander and other allergens from the home.
- Less hassle. BEAM central vacuums have a self-cleaning filter that never needs to be replaced and a large capacity dirt bucket that only needs to be emptied about twice a year. Portable vacuums have filters that need to be replaced and bags that need to be thrown out and replaced.
